

## Refrigerated display 3 shelf and chilled well<br>Curved glass type, closed front with LED illumination and rear sliding doors

Chilled display units incorporating a cold well and 3 glass display shelves. The unique Versigen innovative “Polar Air Stream” system provides a constant recirculating cold air curtain completely enveloping the food displayed. Holding pre-chilled food at a safe, regulated temperature while retaining taste and freshness. Perfect for sandwiches, fruit, yogurts and cold drinks. Self-contained units with accurate, digital control, automatic defrost, high pressure warning and automatic condensate evaporation. Utilising a highly efficient, naturally occurring, hermetically sealed, hydrocarbon gas type R290 reducing carbon footprint and energy consumption.

| Features                                                                                                                                  |
|-------------------------------------------------------------------------------------------------------------------------------------------|
| 4 models in the range.                                                                                                                    |
| High visibility glass display with LED illumination.                                                                                      |
| Mobile all swivel castors two with brakes.                                                                                                |
| Size 3, 4 & 5 have condensing unit set at 90° angle.                                                                                      |
| Chilled well and three fully adjustable glass shelves.                                                                                    |
| Digital thermostat and temperature control with automatic defrost.                                                                        |
| Advanced air flow design with unique polar air stream technology.                                                                         |
| Fully insulated efficient, eco-friendly, refrigeration.                                                                                   |
| Maintaining the core product temperature of pre-chilled food below 5°C in ambient condition not exceeding 25°C and 60% relative humidity. |
| Automatic condensate water evaporation [no need to empty drip trays].                                                                     |
| 24 hour operation.                                                                                                                        |

| Optional Extras                                                                                       |
|-------------------------------------------------------------------------------------------------------|
| Curved or square glass style open or full front.                                                      |
| Wide choice of coloured outer panels (durable plastic coated steel).                                  |
| Lockable roller shutter models.                                                                       |
| Fold down solid tray slide or tubular tray rail.                                                      |
| Front roller blind codes. NB2:- size 2 unit, NB3:- size 3 unit, NB4:- size 4 unit, NB5:- size 5 unit. |

Yes

## Model Specifications

| Model  | Length | Depth | Height | Weight | Amp | Power (kW) |
|--------|--------|-------|--------|--------|-----|------------|
| VC2RDF | 830    | 680   | 1650   | 110    | 10  | 1.5        |
| VC3RDF | 1158   | 680   | 1650   | 150    | 10  | 1.7        |
| VC4RDF | 1486   | 680   | 1650   | 190    | 10  | 1.7        |
| VC5RDF | 1814   | 680   | 1650   | 230    | 10  | 1.7        |

Low height models are available set at 800mm high.  
Ideal for children up to 12 years.  
These low height models have a "B" added to the model code.
