All refrigerated units utilise highly efficient, naturally occurring hermetically sealed hydrocarbon refrigeration gas type R290 reducing the carbon footprint and energy consumption.

Each chilled unit also has the new Polar air stream that provides a constant air curtain.

versicarte **PRO**

Stelvetite Panel Colour Option (must be specified at time of order)

Note: Any panel colour changes after order has been processed may be chargeable

* Default Colour is Merlin Grey

** Extra Cost applies to these finishes

All Versicarte PRO units can be specified in a variety of standard colour choices as well as wood grain finishes
